

Scott,

Thank you for your time this past week helping CGC, LLC get set up with their new estimating system, HeavyBid by HCSS. You spent three working days in our office implementing the software and we have already started using it!

I wanted to extend a special thank you for the additional time and knowledge you brought during your time with our company. Your additional time on the fourth day, which was beyond your obligation to us, as well as the knowledge you possess as a previous construction business executive and owner, really increased *the value* of your service.

Thank you again for your help and please do not hesitate to have potential clients contact me about your performance here on site in Edmond, Oklahoma with CGC, LLC.

Sincerely,

Jimmie Wright  
President
